Business professional's advice

“ The timing is right for such initiative. In the wake of global financial reforms, compliance has become one of the fastest-growing professions in highly-regulated fields including financial services. As new laws such as anti-fraud regulations and the revised Code of Banking Practice emerge, compliance expertise and skills are in great demand to support the planning and implementation of enhancements and control measures that serve our strategic objectives while adhering to the highest ethical and regulatory standards. At the same time, the rise of digital calls for a more agile and adaptive approach to regulatory policies that is in line with the rapidly-changing operating environment. ”

Attainment of
TWO
DEGREES IN
5 years

The CUHK BBA programme provides students with a comprehensive and world-class business education. The programme design comprises broad-based business theory, practice and exposure to the latest developments in the business world, which equip graduates with the expertise needed to excel in the ever-changing environment.

The JD is a respected graduate qualification in legal studies, recognised in many common law and other jurisdictions such as Australia, Canada, Singapore, USA, Japan and the Philippines. It is a qualifying

law degree recognised for admission to legal practice in Hong Kong. The CUHK JD has been very popular among business graduates.

The CUHK BBA-JD Programme is the first of its kind in Asia. It is a well-structured through-train programme that enables full-time students to graduate with an **undergraduate** (BBA) degree and a **postgraduate** (JD) degree in **5 years**, as opposed to the typical 6 years when the two programmes are taken separately.

The CUHK BBA-JD Programme admitted its first cohort of students in 2017-18. Our elite students from around the globe, including Hong Kong, Korea, Mainland China, Singapore, Thailand and Taiwan, bring to the Programme a vast amount of diversity and talent.

Ng Yee Yan

BBA-JD / Year 3 / Singapore

“ Three years into the CUHK BBA-JD Programme, I have managed to explore opportunities and widen my horizons beyond my expectations. Although the curriculum, admittedly, is rigorous, I have found that help in the form of the programme’s academic advisors, as well as course professors, are always readily accessible. It was also with their help that I managed to participate in a highly meaningful exchange programme with the University of Southern California, Los Angeles, last year. Despite the added workload of a double degree, the careful programme plan ensures us, students, will not only not miss out on such opportunities, but furthermore complement it through special networking sessions arranged for us. As such, I have been able to move further with my goal of being a ‘global citizen’ with the BBA-JD Programme. ”

Peony Leung

BBA-JD / Year 2 / Hong Kong

“ In my freshman year in the CUHK BBA-JD Programme, I have built a solid foundation of practical knowledge and other transferrable skills. Studying business and law side-by-side provides room for further reflection on how they are inter-related, highlighting the complexities of current and future complications faced by the business and legal worlds, resulting in a more sophisticated, open and encompassing worldview.

Besides classroom learning, much-coveted opportunities to participate in workshops, visit different organisations, listen to sharings from experienced professionals and interact with mentors were pleasant and necessary steps towards understanding the rising trends of my fields of study, providing me with more insight into possible future careers and what can be done now to better equip me for my aspirations. ”
