“ The interdisciplinary curriculum of CUHK’s BBA-JD programme, which integrates comprehensive knowledge in both business and law, has equipped me with the necessary knowledge and versatility to explore a wide range of career opportunities.

With its high degree of flexibility, students could exercise wide discretion in exploring their area of interest in the business and legal landscape with a myriad of concentration and elective choices available. The faculty, composed of distinguished academics and industry practitioners, also fosters a supportive learning environment that encourages professional growth.

Beyond academics, the programme has refined my career trajectory through internships, student-led initiatives, and a strong professional network. Its support system - including mentorship and networking events, offers valuable industry exposure which has been instrumental to my career development.

Despite its challenging nature, I believe the programme equips students with a competitive edge to navigate the complexities of the legal and business landscape and achieve their career goals. ”

STUDENT SHARING

“ Stepping into my final year at CUHK, I can hardly believe how quickly time has flown. I still remember the hesitation I felt when considering the BBA-JD programme, the idea of embarking on a five-year journey was daunting to me at that time. Yet looking back, it was one of the best decisions I’ve ever made. I am no longer an uncertain freshman who once passively questioned my future.

Through this programme, I’ve grown into a more confident, proactive, and driven individual with clearer aspirations and direction. The BBA-JD programme has been both intellectually stimulating and rewarding. It combines the worlds of business and law in a way that sharpens how I approach real-world challenges.

Beyond the classroom, CUHK and the programme have offered us abundant opportunities to broaden our horizons — from company visits, study tours, and mentorship programmes, to career talks, business projects, and engaging courses. These experiences, both inside and outside the classroom, have not only shaped our university life but also laid a strong foundation for future success. ”
